Chapter I

About the Company 企业概况

山鹰国际控股股份公司(股票代码:600567)是以再生纤维回收、工业及特种纸制造、包装产品定制、产业互联网 等为一体的国际化企业。公司致力于产业生态构建和商业模式创新,成为"为客户创造长期价值的全球绿色包装 一体化解决方案服务商"。

Shanying International Holdings Co., Ltd. (stock code: 600567) is an international enterprise that integrates recycled fiber recovery, industrial and specialty paper manufacturing, customization of packaging products and industrial Internet platforms. It is committed to building an industrial ecosystem and innovating business models to become "a global leading provider of integrated green solutions that creates long-term value for customers".

1957 °	马鞍山市造纸厂成立 Maanshan Paper Mill was established	2007	・美国环宇成立迈向国际化的第一步 The American Cycle Link was founded, as the first step towards internationalization.	2019	 山鷹国际大厦总部落子上海北外 油, 山鷹間飞将从这里继续 Shanying International headquarters building stood in north Shanghal bund. Shanying will continue from here. 	2021	越南中健开工建设,拓展包装业 务的海外市场 Started the construction of Vietnam Zhongjian to sepand overseas market of packaging business
1993	福建泰盛实业成立 Fujian Taison Industry Co., Ltd was established	2011	吉安集团成立 Ji'an Gourp was established.				
1997	组建安徽山鷹纸业集团有限公司	0040		2020	成立泰国金鹤金龙纸业,在海外 拓宽原料渠道 Established Golden Crane (Golden Dragon)	2022	包装集团多个数字化工厂、智慧工厂 投产,向绿色包装一体化解决方案服
1777	Formation of Anhui Shanying Paper Group Co., Ltd	2013	吉安集团与山鷹纸业重组,成立新 的安徽山鷹纸业股份有限公司		Paper in Thailand to enrich raw material channels abroad		务商转型 A number of digital and smart factories of packaging group were put into operation,
2001	山鷹纸业(600567)上交所上市 Shanying Paper Industry(600567)		Shanying Paper Co., Ltd. was reorganized with Ji'an Group to establish Anhui Shanying Paper Co., Ltd.		北欧纸业在瑞典斯德哥尔摩交易 所挂牌上市,国际化进程取得实 质性突破,登陆国际资本市场 Nordic Paper was listed on the Stockholm		transforming into service providers of green packaging integrated solutions
	listed on Shanghai Stock Exchange	2017	正式更名为山鷹国际控股股份公司 Renamed as Shanying International		Stock Exchange in Sweden, a substantial breakthrough in the internationalization process and access to the international	2023	成立回收事业部,持续构建一体 化产业互联生态平台
2002	浙江吉安纸容器公司成立 Zheijang Ji'an Container Co., Ltd		Holding Co., Ltd. 正式更名为山鹰国际控股股份公司		capital market		Set up a recycling division to continuously build an integrated ecological platform for
	was established.		正式更名为山屬国际控放股份公司 并购瑞典北欧纸业,进一步拓展海外 布局,推动国际化进程				industrial interconnection
2004	福建泰盛总部移师上海 Headquarters of Fujian Taison moved to Shanghai.		Acquired Nordic Paper in Sweden to further expand global footprint and advance the course of internationalization

Global Layout

全球布局

布局全球、深耕中国。产业分布中国、泰国、越南、挪威、瑞典、加拿大、美国等国家。截至2023年12月,公 司在海内外拥有45家再生资源回收企业、13家工业及特种纸制造企业,69家包装产品定制企业、2家产 业互联平台。

With deep penetration in China and a global vision, Shangying International has deployed in China, Thailand, Vietnam, the Netherlands, Norway, Sweden, the United Kingdom, Canada, the United States and other countries. As of December 2023, it has 45 renewable resource trading companies, 13 industrial and specialty paper mills, 69 packaging product customization plants and 2 industrial Internet platforms.

Strategy 2021-2025 2021-2025战略

成为"为客户创造长期价值的全球绿色包装一体化解决方案服务商"。

Become a "world-leading green packaging total solution service provider that creates long-term value for customers".

提供一体化解决方案 Provide integrated solutions

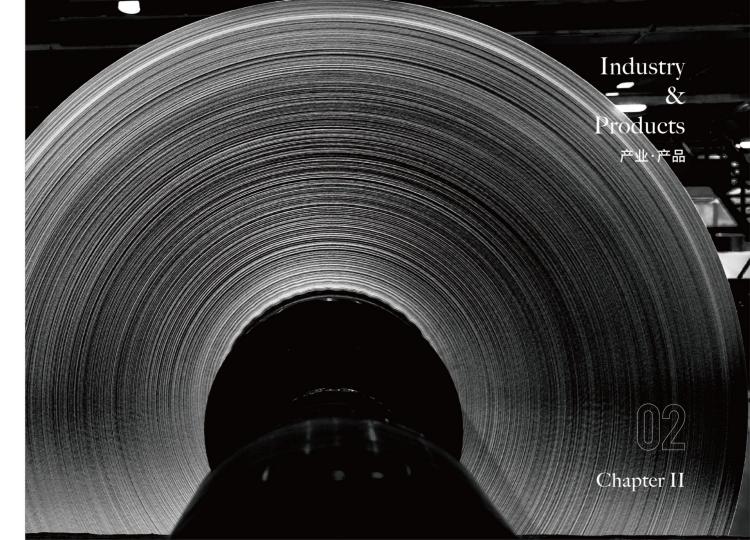

为客户提供绿色包装一体化解决方案 Provide customers with integrated green packaging solutions

搭建一个互联网共享生态圈 Build an Internet sharing ecosystem

一体化对外开放,构建产业互联网生态圈

Build an industrial Internet ecosysem to promote multilateral industrial cooperation

Industry 产业

搭建产业互联网平台,实现绿色资源综合利用、工业及特种纸制造、包装产品定制三项业务协同发展。

Build an industrial Internet platform to realize the synergies across three main business areas: green resources, industrial and specialty paper manufacturing and customized packaging solutions.

产业互联平台

再生资源互联网——云融科技

Yunrong Environmental

用"互联网+物联网+资源循环"模式,组建"资源-产品-再生资源"物质反复循环流动的产业互联 网。

Adopt the "Internet+Internet of Things + Resource Recycling" model and build an industrial Internet of "resources-products-renewable resources" to facilitate repeated circulation of materials.

物流互联网——云链科技 Cloud Chain Intelligence

结合物联网及大数据技术,构建新型的供应链+ 互联网生态,打造国废造纸包装一体化产业的物 流数字化服务平台。

Introduce the Internet of Things and big data technology and build a new ecology of supply chain + Internet, as well as a digital logistics service platform to integrate national waste recycling, papermaking and packaging.

绿色资源综合利用

Comprehensive Utilization of Green Resources

在中国、英国、荷兰、美国等国家和地区建立再生纤维回收渠道,拥有45家国际与国内再生资源回收企业。

It has established recycled fiber recovery channels in China, UK, the Netherlands, USA and other countries and regions, and owned 45 renewable resource trading companies at home and abroad.

工业及特种纸制造基地 Industrial and Specialty Paper Manufacturing

在安徽马鞍山、浙江嘉兴、福建海州、湖北荆州、广东畲庆、吉林松原、安徽宿州落地工业包装纸及特种纸等。 位于瑞典、挪威和加拿大的北欧纸业生产天然防油纸、特种牛皮纸、高强度纸袋纸、电工纸及水帘纸等,于2020年 10月在瑞典纳斯达克成功上市。

位于美国肯塔基州的凤凰纸业, 硬木漂白浆、双胶纸, 喷墨打印纸等文化纸产品。

Industrial packaging paper and specialty paper produced in Ma'anshan, Anhui province, Jiaxing, Zhejjang province, Zhangthou, Fujian province, Jinghou, Hubbi province, Changthou, Guangdong province, Songyuan, Jilin province and Suzihou, Anhui province, Natural greaseproof paper, specialty kraft paper, high-trength sack kraft paper, electrotechnical paper and absorbent paper produced by Nordic Paper in Sweden, Norway and Canada, a company successfully listed on Nasdaq in Sweden in October 2020. Bleached Hardwood Plu, U.F. San divide; paper produced by Phoenic Paper in Kentucky, USA.

包装产品定制 Packaging Product Customization

在海内外拥有包装产品定制企业69家,布局于天津、青岛、烟台、合肥、马鞍山、扬州、常州、苏州、泰州、嘉兴、嘉善、杭州、武汉、莆田、厦门、佛山、中山、珠海、南宁、重庆、贵阳、遵义、成都、宜宾、泸州等城市及越南、泰国等国家。

Shangying International has 69 packaging product customization plants with more than 2 billion square meters customized annually in Tianjin, Qingdao, Yantai, Helei, Ma' anshan, Yangshou, Changshou, Suzhou, Jiabhou, Jiasing, Jiashan, Hangshou, Winhan, Putian, Xiamen, Foshan, Zhongshan, Zhubul, Naming, Oknogaing, Guiyang, Zunyi, Chengdy, Wishi, Luzhou and Vetham, Thailand and other city and countries.

Products

产品

主要产品为各类包装原纸、特种纸及纸板、纸箱、食品级纸塑等,被广泛用于消费电子、家电、化工、轻工、食品等消费品及工业品行业。

The main products include all kinds of packaging paper, specialty paper, paperboard, food-grad molded pulp products, etc.which are widely used in consumer electronics, home appliances, chemical industry, light industry, food and other consumer goods and industrial products industry.

工业包装用纸 Industrial packaging paper

箱板纸、瓦楞纸、涂布牛卡纸、白面牛卡纸

Kraft liner, corrugated paper, coated kraft paper and white top liner.

特种纸 Specialty paper

新闻纸、伸性纸袋纸及棉签纸棒纸等

Newsprint, bag paper and cotton swab paper.

北欧纸业生产天然防油纸、特种牛皮纸、高强度纸袋纸、电工纸及水帘纸等。 凤凰纸业主要生产硬木漂白浆、双胶纸、喷墨打印纸等文化纸产品。

Natural greaseproof paper, specialty kraft paper, high-strength sack kraft paper, electrotechnical paper and absorbent paper produced by Nordic Paper. Bleached Hardwood Pulp, UFS and inkjet paper produced by Phoenix Paper.

食品纸 Food grade paper

北欧纸业生产的天然防油纸主要用于餐饮和食品行业的烘焙纸、烘烤 杯、防油食品包裹及纸盒容器等食品级用纸、食品级安全性远离于目前 国内水平。其天然防油纸产量和市场占有率全球排名第一,占有全球防 油纸10%的市场价额。

The natural greaseproof paper produced by Nordi Paper is mainly used for different types of baking and cooking applications such as baking paper, baking cups and various food waappers and containers. Nordic Paper's natural greaseproof paper meets global standards for food handling. It is the world's leading producer of natural greaseproof paper (with an estimated market share on the global greesproof paper of 10%).

棉签纸棒纸

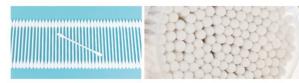

*Fisher International Market Study.

Specialty Paper for Cotton Swab Paper Rod

广东山鹰成功研发的棉签纸棒专用纸,以优异的质量与成本优势,实现了进口替代,并为客户在新"限型令"下棉签转型提供 了高质量的解决方案。目前,山鹰的白色牛皮纸在国内棉签纸棒细分市场领域已占据50%市场份额,产品已遍及国内高端消费品领域,并远销欧美等发达国家。

Guangdong Shanying has successfully developed the specialty paper for cotton swab paper rods, with excellent quality and cost advantages, thus to achieve import substitution, and provide customers with high-quality solutions for cotton swab transformation under the new "ban on free plastic bags".

Appresent, the knaft paper of Shanying has occupied 50% market share in one six a market sagreement of cotton wash paper and, and the finished products have been all over the domestic high-end consumer goods field, and excorted to Europe and the United States and other developed countries.

高透高强纸袋纸 Sack Paper

高透高强纸袋原纸是高档化工、砂浆等袋式包装的重要材料, 其高强度、高透气的特性可满足高速装袋、 无尘装袋的高要求,是"以纸代塑"的重要产品。

The high-porosity and high-strength sack paper is an important material for high-grade chemicals, cement and other packaging. Its characteristics of strength and porosity can meet the high-quality and dust-free requirements of customers. It is an important product for "replacing plastics with paper".

广东山属生产出的"白雪公主+"透气度 为25µm/(pa·s)。远远高于国家标准,产 品主要用于高档化工品包装,大大提升 罐装速度。装一袋钛白粉,可以将速度从 原来的1分钟5包提升至1分钟8包。

The "Cedar white-" produced in Guangdong Shanying has an air permeability of 25µm/(pa -s), which is higher than the national standard. The product is mainly used for the packaging of high-end chemical products, and has greatly increased the canning speed. The speed of packaging of a bag of litanium dioxide can be increased from 5 to 8 bags per minute.

食品级纸塑 Food-grade molded pulp products

总产能8万吨的宜宾祥泰,是目前中国最大的食品纸塑工厂之一,通过为高端餐饮客户服务的质量体系:ISO22000QS和BRC-IOP,产品范围广泛,从餐盘、餐盒、汤碗到杯盖、保鲜盒等品类。

With a total capacity of 80,000 tons, Yibin Xiangtal is currently one of the largest food-grade. It provides high-end catering customers with quality system services, including SO22000QS and BRC-IOP, with wide products range from dinner plate, food container, soup bowl to cup lid, preservation box and other categories.

21 22

Innovative R&D 创新研发

持续加大产品技术研发力度,坚持用高新技术和适用技术改造来提升传统产业。目前拥有2 所博士后科研工作站、14家国家级高新技术企业、4个环保资源综合利用项目。建设省级企 业技术中心、回收纤维造纸工程技术研究中心、专业包装设计测试中心等各级研发平台。全 面探索基于新材料、新技术、新产品、新模式等的全要素创新。

Continues to devote greater efforts to product and technology R&D, adhere to the use of high-tech and applicable technology to transform and upgrade the traditional industry. At present, 2 post-doctoral workstations, 14 national high-tech enterprises, 4 projects for comprehensive utilization of environment-friendly resources, and it has established the provincial enterprise technology center, recycled fiber papermaking engineering technology research center, professional packaging design and test center and other levels of R&D platforms to comprehensively explore total factor innovation based on new materials, new technologies, new products and new models.

2 所 | 博士后 | 14 家 | 高新技术企业

综合利用项目

苏州研发中心 Suzhou R&D Center

苏州研发中心的创新产品屡次获得国际 设计大奖,已包揽包装设计界和工业设计 界最重要的三大国际设计奖项;包装世界 之星、IF设计奖和德国国家设计奖。

The innovative products of Suzhou R&D Center have repeatedly won international design awards, including three most important international design awards in the field of packaging design and industrial design: PackStar Award of WorldStar, iF Design Award and German Design Award.

上海研发中心 Shanghai R&D Center

致力于成为地球的健康使者,推进不可 降解、微塑料、有毒有害等不友好产品的 替代进程。研发可持续的包装材料和低 碳节能的生产工艺。

It is committed to becoming a health envoy for the earth to facilitate the replacement process of non-degradable, microplastic, toxic and harmful products, and developing sustainable packaging materials and low-carbon and energy-saving production technology.

青岛研发中心 Qingdao R&D Center

拥有符合国际标准的现代化实验室。取 得CNAS、ISTA国际认证及CMA国家级实 验室认证。为国家认可的独立的第三方 检测机构。

It owns a modern laboratory in line with international standards. And it has obtained CNAS, ISTA international certification and CMA National laboratory certification, and been an independent third-party testing institution recognized by the state.

标准体系建设日趋完善

Increasingly Improved Construction of Standard Systems

为践行企业责任,履行社会担当,山鹰国际持续加大标准化建设力度。在质量、安全、环保、行业监管、研发测试等方面均全面与国际标准接轨。

In order to practice corporate responsibility and fulfill social responsibility. Shanying International continues to increase standardization construction efforts. In quality, safety, environmental protection, industry supervision, R&D test and other aspects, it has been fully in line with international standards.

质量 | Quality

- ISO 9001:2015认证 ISO 9001:2015 Certification
- GMI认证(国际图形测量公司)
 Graphic Measures International Certification
- G7认可企业资格 G7 Master Qualification

安全 | Safety

研发测试 | R&D Test

• 国际安全运输协会认证 International Safe Transit Association Certification

Green and Low-carbon Development 绿色低碳发展

山鷹国际构建并实施以"给地球減负,让生活更美好"为定位的企业社会责任管理体系,秉承"共创,共享、共赢"的发展理念,制定以"绿色循环、减量低碳、产业共赢、与爱同行"为主要内容的山鹰国际2030年可持续发展目标,朝着全球领先、具有价值创造力与可持续的生态型企业迈进。

Shanying International establishes and implements the CSR management system positioned "reducing the burden of the earlying international 2039 Sustainable Development concept of "co-creation, co-sharing and win-win", formulates the Shanying International 2039 Sustainable Development Goals centering around "green circulation, emission reduction and low carbon, win together with the industry and travel with love" and builds itself into a world's leading ecological enterprise that can create value

实现工业固废能源化

Conversion of industrial solid waste into resources

分别在浙江省海盐县、安徽省马鞍山市、湖北省公安县,投产建设三个绿色资源综合利用项目。项目 引进欧洲先进的CFB固废锅炉、RDF预处理系统及其他辅助生产设备,总投资24亿元,可处理一般工 业固废约129万吨,将造纸废弃物、造纸污泥以及市政污泥等一般工业废弃物进行减量化、无害化、资源化利用。 In Halyan County, Zheljang Province, Ma'amshan City, Arbuit Province and Gong'an County, Hubbl Province, three comprehenshe projects of green resources utilization have been put into operation, which introduce the advanced CFB solid waste boiler, RDF pretreatment system and other auxiliary production equipment from Europe, with a total investment of 2.4 billion yuan and can treat about 1.29 million tons of general industrial solid waste such as papermaking waste & sludge and municipal sludge, so as to reduce the amount of solid wastes and transform them into neargy through harmless treatment.

发展再生资源回收业务 Develop renewable resources recycling business

通过多年积累, 山鷹在国内外建立了较完善的回收纤维采购网络, 实现了资源—生产—消费—资源再生 的良性循环。被中国再生资源回收利用协会授予国内首家废纸产品信息化溯源和质量管理规范化试点 企业。

Through years of accumulation, Shanying has established a relatively perfect procurement network of recycled fiber at home and abroad, and realized a virtuous cycle of resource-production-consumption-resource regeneration. It has been awarded China's flist pilot enterprise for waste paper product information traceability and quality management standardization by China Renewable Resources Presching and Utilization Association.

山威资源由山屬国际、成立雅中国、宁波深蓝三方合资成立、将"碳中和+全品类回收+精细化分拣"三大 理念相结合,将在全国城市重点投资建设城市再生资源大数据平台和全品类绿色分拣中心,从事全品类 再生资源回收利用,通过对城市统一规划市局,投建全品类绿色分拣中心,以现代车联网、智能物联网、 大数据信息技术为支撑,创建一个"从源头收集经分拣处理直达终端再生利用"的再生资源回收体系,从 而提升城市命合环境治理能力,助力循环经济发展。

As a joint wenture of Shanying International, Veolia China and Ningbo Deep Blue, Shanwell Resources integrates the concepts of "arthon neutrality, all-category recycling and fine sorting," and will primarily invest in building big data platforms of urban renewable resources and all-category green sorting centers in clies across the country, and engage in the recycling and reuse of all-category renewable resources. All-category green sorting centers will be built through unified planning and deployment in clies while a recycling system of renewable resources' collected from the source, sorted and recycled to the terminal* being pictode by modern connected whileds, intelligent IOT and big data information technology to enhance the comprehensive environmental governance capacity of clies and full the development of circular economy.

推进污水处理"零排放"

Promote "Zero Emission" in sewage treatment

山鹰严格执行国家环保排放标准,已建立一整套环境保护和治理制度,为美丽中国增添一抹绿色。

Shanying has strictly implemented national environmental protection emission standards and established a set of environmental protection and governance systems to add a touch of green to the Beautiful China initiative.

浙江山鹰厂区进行"雨污分离"技改,实现了雨水资源化利用,不仅减轻了污水处理系统的负担还降低了取水成本。

Zhejiang Shanying factory zone has carried out the technical reform of "rainwater separated from sewage" to realize the utilization of rainwater resources, which not only reduces the burden of sewage treatment system but also lowers the cost of water intake.

华南山鹰与北京大学在废水处理方面进行紧密合作,开展"造纸废水处理与回用技术项目",推进节能减排。

Huanan Shanying has cooperated closely with Peking University in wastewater treatment, and carried out the "Papermaking Wastewater Treatment and Reuse Technology Project" to promote energy conservation and emission reduction.

华中山鷹废水处理系统排水执行《城镇污水处理厂污染/排放标准》一级A排放标准,经深度处理净化后的废水,主要水质指标优于城市供水(工业用自来水),外排水可以直接排放到长江,也可以作为景观水,养鱼养花,实现污水"零排放"。

Huazhnog Shanying executes Tier A of the Discharge Standard of Pollutants for Municipal Wastewater Treatment. The quality indicators of wastewater deeply treated and portfate are better than those of urban water supply (tap water for industrial use) and the drainage can be directly discharged into the Yangste river or recycled as the landscape water for flower growing and fish breeding, realizing zero wastewater discharge.

广东山鹰采用低温干化技术进行污泥深度脱水,通过对纸机冷凝水低品质热源的梯级利用,污泥干度从45%提高到80%以上,实现污泥量减45%。

Guangdong Shanying adopts love-temperature desicating technology for deep sludge dewatering. Through the stepvise utilization of low-quality heat source of condensate water from paper machines, sludge desication rate is increased from 45% to more than 80% while sludge volume is reduced by 45%

推进热电项目碳排放

Improve carbon emissions of thermoelectric projects

推进热电联产项目减排——对各造纸基地热电厂进行 超低排放改造,NOX、SO2、粉尘等排放已达到国内超低 排放标准;

推进能源转型——吉林基地建设生物质热电联产项目,通过利用秸秆等农林废物进行发电及供热,热电联产,新建2台75t/h高温高压循环流化床锅炉配2台 C15-8.83/0.294抽凝式高温高压汽轮发电机组,发电供

热共计节约标煤76678.44t。

积极参与碳交易——目前安徽、浙江、华南、华中基地热电厂已被纳入全国碳交易市场。

Reduction of carbon emissions during thermal power generationthe thermal power plants of papermaking bases are renovated for ultra-low emissions, and the emissions of NOX, SO2 and dust have reached China's ultra-low emission standards:

Advancement of energy transformation - Jilin base has launched a biomass cogeneration project, which uses straw and other agricultural and forestry westes for power generation and heating supply. It has newly built two '75t/h high temperature and high pressure circulating fluidized bed boilers and two CL5-8.83/0.294 high temperature and high pressure steam turbine generator sets, which can save a total of 76678.44 standard coal during power generation and heating supply.

Being engaged in carbon trading actively - At present, the thermal power plants of Anhui, Zhejiang, Huanan, Huazhong bases have been included in the national carbon trading market.

Shanying Culture 山鹰文化引领

山鹰使命

Mission

以纸为媒,让生活更美好 Better Paper, Better Life

山鹰愿景

Vision

为客户创造长期价值的全球绿色包装一体化解决方案服务商 Being a global leading provider of integrated green solutions that creates long-term value for customers

山鹰核心价值观 Core Values

守信 协作 求精 成就

Integrity, Cooperation, Excellence and Achievement

包装板块年产量20.6亿平方米,位居中 国第二,毛利率13.4%,同比增加2.69个 百分点。

The annual output of the packaging BU was 2.06 billion square meters, ranking No.2 in China; full-year gross profit margin of packaging BU was 13.4%, up 2.69% YOY.

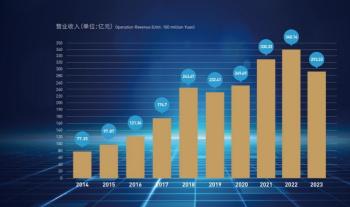

造纸板块已经形成在核心区域华东、华南、华中等器000万吨的布局优势,规模位列行业第二。原纸板块产量678.47万吨,同比增长10.35%,销量677.73万吨。同比增长9.97%,产销率99.89%,实现产销缴步增长。

It has formed the layout advantage of more than a million tons in the markets of East China, South China and Central China, ranking No.2 in the industry. The output of base paper was 6:7847 million tons, up 10.35% NOY; the asks volume was 6:7737 million tons, up 9.97% NOY; the production-asker satio of base paper was 9.98%, presenting a balanced growth of production and sales.

The Company's Performance in 2023 2023年度公司业绩

2023年,山鹰国际营业收入达293.33亿,经营性现金流量净额 31.67 亿元。

In 2023, Shanying International's operating revenue reached 29.333 billion RMB. The net operating cash flow wa 3.167 billion RMB.

Brand Honor 品牌荣誉
